RE: CONVENIA® (cefovecin
sodium)
Docket No.: FDA-2009-E-0087

Attention: Beverly Friedman

UNITED STATES PATENT AND TRADEMARK OFFICE

In re Pfizer Inc. :
Request for Patent Term Extension : ORDER GRANTING
U.S. Patent No. 6,020,329 : INTERIM EXTENSION

Pfizer Inc., the owner of record in the United States Patent and Trademark Office (USPTO) of U.S. Patent No. 6,020,329, filed an application for patent term extension under 35 U.S.C. § 156 on June 20, 2008. The extended term of the patent is due to expire on July 22, 2012. Applicant filed a request for a second interim extension on April 13, 2012. The patent claims the active ingredient, cefovecin sodium, in the animal drug product CONVENIA®, which was approved by the Food and Drug Administration for commercial marketing or use on April 25, 2008. An extension of 1,462 days is requested.

The initial USPTO review of the application to date indicates that the subject patent is eligible for extension of the patent term under 35 U.S.C. § 156. A final determination of the length of the extension of the patent term and issuance of a patent term extension certificate cannot be made until a final determination of the length of the regulatory review period is made. Because the extended term of the patent would expire before a certificate of patent term extension can be issued, an interim extension of the patent term is appropriate.

An interim extension under 35 U.S.C. § 156(e)(2) of the term of U.S. Patent No. 6,020,329 is granted for a period of one year from the extended expiration date of the patent.
